

Job Description

Machinist(s)

Tool Gauge is located in Tacoma, Wash. We are a fast-paced, non-union job shop. We specialize in precision machining and assembly applications supporting the aerospace industry.

We have day and night shift job opportunities in our plastics and metals shops for experienced machinists with the ability to work independently, perform set-ups, edit programs, and operate all conventional and CNC machine shop equipment at very close tolerances.

Requirements

- 3+ years of experience
- Mastercam / ESPRIT experience a plus
- Ability to calculate cutter speeds and feeds
- Ability to read CNC G&M codes
- Ability to read and modify CAD drawings for standard practices and standardization of equipment and parts
- Ability to interpret and apply geometric dimensioning and tolerancing
- Advanced shop mathematic skills, including ability to calculate lengths, angles, and distances
- Previous practical machine shop or equivalent experience doing close tolerance work from blueprints, sketches, CAD drawings, and verbal instructions
- Knowledge of English and metric thread standards
- Knowledge of sliding and press fit standards
- Ability to set up and operate vertical, horizontal, and lathe machining centers
- Basic knowledge of metals heat treating
- Strong verbal and written communication skills
- Aircraft experience preferred, but not a requirement
- Ability to lift up to 50 lbs

We offer competitive compensation and benefits, including medical, dental, vision, paid holidays and vacation, 401k, and profit sharing. A pre-employment drug screen is required before onboarding. You must be a U.S. citizen or a legally authorized foreign worker.

Tool Gauge is an equal opportunity employer.

How to apply

Candidates should send their resume to hr@toolgauge.net. We will review all resumes for qualifications and contact candidates whose profile is of interest to schedule an interview.
