

Job Description

Injection Molding Process Technician / Mold Setter

Tool Gauge is located in Tacoma, Wash. We are a fast-paced, non-union job shop. We specialize in precision machining and assembly applications supporting the aerospace industry.

We are currently looking for a dedicated and skilled team player to fill an opening for a full-time Injection Molding Process Technician / Mold Setter. This position provides technical support to the manufacturing floor through a variety of functions ranging from material handling to process parameter establishment, including mold set-up / tear-down, machine start-up, and general processing.

Requirements

- Capable of handling an injection molding job from set-up through shutdown and troubleshooting process issues
- Skilled in critical injection molding parameters (injection pressure, injection speed, heat profiles, etc.) and how they interrelate in establishing a process that yields a consistent molded product
- General knowledge of plastic injection molding machines and related auxiliary equipment such as robots, dryers, mold heaters, oil heaters, chillers, and any other support equipment
- Experienced in working with hydraulic systems
- Able to provide training in operating machines in a safe manner
- Able to be on their feet eight to 12 hours a day
- Able to lift 50 lbs
- Willing to work overtime when required and work during weekends when production demand is high or schedule changes require it
- Analytical, well organized, reliable, and a good work attitude
- Good verbal and written communication skills
- Computer skills (Microsoft Office, Word, Excel, Outlook)
- Background / education in manufacturing and plastic processing
- Some management and training courses
- Ability to read and interpret drawings
- Experience processing a wide range of thermoplastic materials
- Forklift training / certification

We offer competitive compensation and benefits, including medical, dental, vision, paid holidays and vacation, 401k, and profit sharing. A pre-employment drug screen is required before onboarding. You must be a U.S. citizen or a legally authorized foreign worker.

Tool Gauge is an equal opportunity employer.

How to apply

Candidates should send their resume to hr@toolgauge.net. We will review all resumes for qualifications and contact candidates whose profile is of interest to schedule an interview.
